22-Jan-2022

**Full Stack Web
Developer**
Udemy

Education

BS Computer Science
WUM Uni, Multan

SKILLS

- JavaScript
- Node.js
- React.js
- MongoDB
- Blockchain Development
- Git and version control

About Me

I am a highly motivated MERN (MongoDB, Express.js, React.js and Node.js) developer. I have a passion for developing user-friendly, high-performance applications, and I am proficient in React, Node, MongoDB and various related technologies. I am a dedicated individual who takes pride in producing clean, efficient code.

Professional Experience

Recently developed a to-do app where users must strongly authenticate.

If the user has a valid token, they can access the notes. Moreover, the code is available on GitHub.

There are numerous projects here. Currently, I'm working with materials user interface to create stunning interfaces.

Achievements

I earned a certificate on Hackerrank about problem solving and skills base certification.
